## *On Twerton*

**Edited by your local Focus Team**

### ***Is the High Street changing?***

Bath City are moving ahead rapidly with their plans to partly redevelop their stadium and are working with several partners to also deliver a degree of new housing and possibly additional shopping and facilities.

We are seeking clarification as to exactly how this will take place and how wide and far reaching the plans will be as far as the high Street is concerned.

A more detailed story is available to read on our web pages.

### ***Innox Park - Enhancements***

We are expecting improvements to Innox Park play area to take place later this year.

This will include street lighting to be installed along the footpath. We have also had confirmation that the play areas will also be refurbished at the same time.

We are hopeful this will make a significant difference to this open space and make the area safer.

### ***Down Your Street***

#### **Woodhouse Road**

We are pleased to see that the footpaths around this whole area have now been resurfaced and have received confirmation that the residue and covered drains are being sorted as soon as possible.

#### **The Hollow**

We recently joined local residents at the appeal hearing for the proposed housing development below the City Farm and are now waiting to find out the inspectors decision. We remain opposed to this development.

#### **Poolemead Road**

We have reported the rapidly deteriorating road surface to the Highways team and are waiting for them to come out and inspect it. We will keep you updated.

### ***Other News***

We are pleased to confirm that work has finally started on the resurfacing of Kelston View, this is being carried out in 3 phases, with the final phase scheduled to be completed in August.

We will be looking at getting other roads across the area sorted as soon as we can.

We will be out an about around the ward over the coming weeks with our annual residents survey. Please take the time to complete this as it helps us to ensure your issues and concerns are looked into and acted upon.

Twerton is a lovely community and we are here to help wherever we can, so please do take the time to get in touch if there is an issue in your area that is not being dealt with.

### Proposed New Waste arrangements

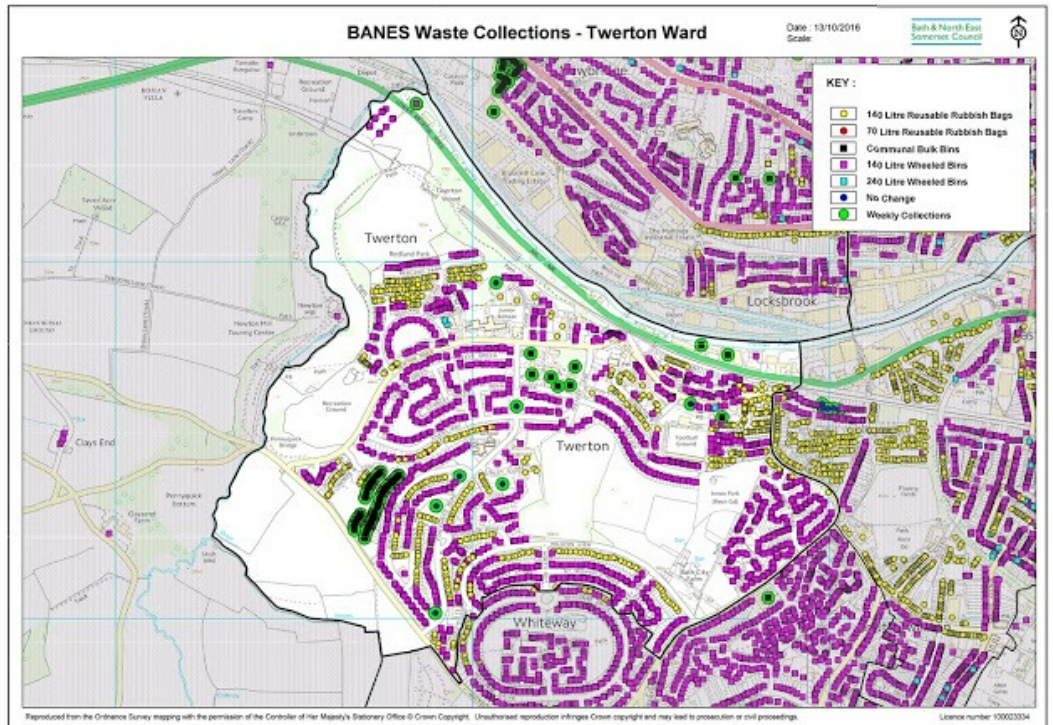

Many residents have contacted us about the proposed changes to the waste collections that is due to come into force in November. We have located this map, which you can view either on our blog or the BANES website.

This map shows which receptacle each household has been allocated and is colour coded.

The majority have been given a wheelie bin with some homes being given the gull proof bags.

The waste collection will be changing to fortnightly collections for almost all of the Twerton ward from November.

If you have any questions on this, please do get in touch with the Waste Services team at BANES, who will be able to assist you.
